## Seating Chart

How to use this page:  
Print in landscape and space out your rows and separate groups or rows of students using the grid square as a guide.  
Note: In single row arrangements, enter each student's name on a new line below all 10 rows for easy data entry.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20

• Let the physical layout of the classroom reflect your teaching style.  
• Assign seats based on what you can observe about each student with every student.  
• Assign seats so that each student has a clear view of the front of the room.  
• Assign seats so that no one sits alone.  
• Create special seating arrangements for writing.  
• Label desk numbers to help students and parents find their seats.  
• Assign seats based on the classroom rules and your classroom policy where students are seated in pairs and rotate seats to see them clearly.  
• Organize desks in rows or clusters based on literary techniques such as fables, reader-response, and book clubs.  
• Rotate the layout in increments of 4.

No answer key for this page. This is a freebie from my TPT store.
